PROFESSIONAL SUMMARY

Frontend Developer with 1+ year of professional experience building production-level web applications using React.js, Next.js, and the MERN stack. Proven ability to deliver responsive, accessible, and high-performance user interfaces within Agile team environments. Skilled in Three.js for 3D web experiences, REST API integration, CI/CD workflows, and component-based architecture. Proficient in Figma-to-code workflows and cross-functional team collaboration. Passionate about clean code, performance optimization, and continuous learning.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, Sass (SCSS)

Frontend Frameworks: React.js, Next.js, Angular

Mobile Development: React Native, Expo

3D & Animation: Three.js

UI Libraries: Tailwind CSS, Material UI (MUI), Bootstrap, PrimeNG

State Management: Redux, Context API, React Hooks, React Router

Backend & APIs: Node.js, Express.js, MongoDB, Mongoose, REST APIs, JWT Authentication, Firebase

Testing & Quality: Jest, React Testing Library, unit testing, code review

Tools & Workflow: Git, GitHub, NPM, Figma, CI/CD pipelines, Agile, Scrum, Responsive Design, Web Accessibility (a11y)

WORK EXPERIENCE

Frontend Developer — bit68, Cairo, Egypt *October 2025 – Present*

- Developed and maintained 5 production-level platforms (GTO, Ejaby, Basata, Paymob Dashboard, Posh Saver) serving thousands of active users across Egypt and the MENA region.
- Reduced page load times by up to 35% through code splitting, lazy loading, and component-level performance optimizations.
- Built 20+ reusable React components adopted across multiple projects, improving development speed and UI consistency.
- Integrated 15+ RESTful API endpoints and implemented secure JWT authentication workflows, reducing data-handling errors.
- Collaborated in an Agile/Scrum team with daily standups, sprint planning, and bi-weekly code reviews, consistently delivering features on schedule.
- Improved web accessibility (a11y) compliance across platforms by implementing ARIA labels, keyboard navigation, and semantic HTML.
- Contributed to CI/CD pipeline by maintaining clean Git branching strategies and participating in deployment workflows.

Frontend Developer Intern — bit68, Cairo, Egypt *June 2025 – September 2025*

- Gained hands-on experience in a fast-paced Agile environment, contributing to internal tools and refining frontend architectures.
- Mastered modern development workflows, version control with Git, and code review standards across real production codebases.
- Supported senior developers in implementing UI components and integrating REST APIs, building a strong foundation in team-based development.

PROJECTS

Paymob Dashboard | *React.js, Next.js, TypeScript, REST APIs*

- Developed merchant and admin-facing dashboard features handling complex financial data views for 50,000+ transactions.
- Secured sensitive payment workflows by integrating API authentication and handling token-based session management.

BasataPay | *React.js, Next.js, TypeScript*

- Built responsive UI components for the BasataPay platform, decreasing render time and improving mobile user experience.
- Integrated REST API endpoints to ensure real-time data synchronization and smooth end-to-end user experience.

Wasl | *React.js, Next.js, TypeScript, Node.js, MongoDB, Express.js, JWT*

- Developed a full-stack e-commerce platform for buying and selling products with secure JWT authentication and RESTful APIs.
- Implemented product listings, cart management, and checkout flow with a fully responsive and accessible UI.

GTO Platform | *React.js, Next.js, TypeScript*

- Contributed to the GTO platform during internship, implementing UI features and integrating API endpoints under senior guidance.

E-commerce & Expense Tracker App | *React Native (Expo), Node.js, MongoDB*

- Delivered a cross-platform mobile and web app with product listing, shopping cart, expense tracking, and JWT-secured authentication.
- Achieved sub-2-second load time on mobile by optimizing image assets and implementing local storage caching.

EDUCATION

Bachelor of Commerce — Cairo University, Giza, Egypt *March 2020 – September 2024*

CERTIFICATIONS

- MEAN Stack Web Development Track — National Telecommunication Institute (NTI), 2024
- Front-End Web Developer Nanodegree — Udacity, September 2022
- Web Development Challenger Track — Udacity, July 2022
